

ACADEMIC HONESTY CONTRACT

I, _____, agree to be academically honest in my AP Physics One or Physics class this year. This means that I will do my own homework, labs, daily quizzes, tests, etc. If I choose to be dishonest or cheat, I fully understand that I will not learn the material and skills necessary to be successful and will be referred to administration for disciplinary action per the Student Handbook. I may also create the impression that subsequent work should be called into question. I also understand that the person offering the homework, project, test etc., either with or without his/her knowledge and/or consent, will also be referred for disciplinary action.

I understand that I am responsible for my own learning. I will participate in class activities, complete homework and lab assignments, and seek help when needed. I understand that Mrs. Spaulding will provide effective continuous feedback and adjust her instruction to help meet student needs. In response to this, I agree to be actively involved in this process by assessing myself and reflecting on the feedback provided. I will also work with Mrs. Spaulding to establish a plan of remediation to help me succeed in this class.
